PROFESSIONAL PROFILE

Business Administration student specializing in Financial Markets and Institutions with hands-on experience in business operations, KPI reporting, process improvement, financial analysis, and capital markets. Built real-world projects using Excel, SQL, and Power BI and gained practical exposure to fundamental analysis, technical analysis, and stock trading through Mubasher Trade. Seeking entry-level opportunities in Business Analysis, Operations Analysis, Financial Analysis, or Data Analysis.

EDUCATION

BBA — Financial Markets and Institutions | Helwan University, Faculty of Commerce 2023 – 2027

GPA: 3.2 / 4.0 | Expected Graduation: 2027

WORK EXPERIENCE

Customer Experience Associate | Trapped Egypt — Escape Room Nov 2025 – Present

- Manage end-to-end customer inquiries, bookings, and issue resolution while supporting high-volume daily operations.
- Identify recurring customer and operational friction points and contribute improvement ideas to improve service delivery and workflow consistency.
- Support KPI-focused operational tracking and reporting for customer service and call center performance.

Capital Markets & Trading Intern | Mubasher Trade Aug 2026

- Completed intensive practical training in stock market trading, brokerage operations, market participants, and the end-to-end trading environment.
- Learned and applied fundamental analysis concepts to evaluate companies through financial performance, profitability, margins, and key financial indicators.
- Developed practical knowledge of technical analysis, including price trends, chart patterns, support and resistance levels, and market indicators.
- Executed and monitored stock trades during hands-on training, applying market analysis concepts to trading decisions.
- Gained exposure to brokerage operations, marketing, customer service, traders, and client interactions within a financial services environment.

Head Basketball Coach | Strike Academy Jun 2025 – Dec 2025

- Built performance-tracking spreadsheets monitoring player KPIs including shooting accuracy, attendance, and improvement rates.
- Used structured performance data to support coaching decisions and training plans for youth and competitive players.

Instructor & Program Coordinator | Edrak — KidZania Egypt Apr 2024 – Jun 2025

- Designed scheduling and coordination trackers adopted across teams to improve operational flow and reduce session errors.
- Managed 20+ participants per session with responsibility for delegation, scheduling, and real-time logistics.

PROJECTS

Cairo F&B Delivery Market Analysis | SQL + Power BI + Excel 2025

- Collected and structured data for 90+ Cairo restaurants, queried data using SQLite, and built an interactive Power BI dashboard with KPIs and market insights.

EGX Blue-Chip Financial Ratio Analysis | Excel 2025

- Analyzed three years of financial statements for 5 EGX-listed companies across 13 profitability, liquidity, leverage, efficiency, and market ratios.

Strike Academy Operations Efficiency Analysis | Process Mapping + Requirements Documentation 2025

- Mapped registration, scheduling, and performance-tracking processes; identified 5 key inefficiencies and delivered recommended digital solutions.

Trapped Egypt Call Center KPI Dashboard | Excel 2025

- Built a KPI tracking system using live call center data to calculate answer rate, average call duration, waiting time, and per-agent performance.

Quality Control Proposal — Trapped Egypt | PowerPoint + Research 2025

- Designed a Monitor → Score → Coach quality framework and presented the business case for QA implementation to management.
